a. Procedure burden and relative signal

b. Case gap for highest absolute differences

c. Procedure signal: early and recent periods

d. Study scale, 2023-2025

Operations	**1,949,489**
Reported SSI cases	**11,814**
Predicted SSI cases	**13,126**
Facility-year procedure reports	**17,862**
Procedure categories	**28**

Overall observed-to-predicted ratio: 0.90

Procedure family

- Abdominal and enteric
- Implant and orthopedic
- Obstetric and pelvic
- Cardiac and vascular
- Transplant
- Other

Period

- 2016-2018
- 2023-2025
